

Crescent[®]
BRAND

For those in need of speed.

RapidSlide™ wrenches are the convenient, reliable way to get jobs done fast.

COOPER Hand Tools

Innovation from the makers of the original Crescent® brand adjustable wrench.

The new Crescent® brand RapidSlide™ adjustable wrench helps get jobs done quickly and easily with just a flick of your thumb. The slide control in the handle provides smooth, fast, and accurate jaw adjustment... just slide the button forward to lock the jaws onto the fastener; pull back to release. The polished jaws open wide for maximum versatility, and precise laser-etched indicator markings show jaw position for both SAE and metric-sized fasteners. An extra-wide handle provides exceptional comfort, strength, and bolt-busting power. The new RapidSlide... from Crescent, makers of the Original Adjustable Wrench.

Laser-etched SAE/Metric jaw-opening indicator markings

Max. Jaw Capacity:
6-inch RapidSlide – 15/16 inches (24mm)
8-inch RapidSlide – 1 1/8 inches (29mm)
10-inch RapidSlide – 1 5/16 inches (33mm)

Internal debris shield keeps out contaminants, assuring smooth operation

Slide control in handle for smooth and fast jaw adjustment

Extra-wide handle allows you to comfortably apply more force for greater power

Catalog Number	Description
AC6NKWMP	6-piece Tray Pack, 6-inch RapidSlide™ Adjustable Wrench
AC8NKWMP	6-piece Tray Pack, 8-inch RapidSlide™ Adjustable Wrench
